**Health Plans USA ™** is the most comprehensive and accurate resource available for U.S. health insurance market share data. This user-friendly database presents the latest health plan membership including:

- Self-funded – Commercial risk – Medicare – Medicaid enrollment

- Market share by parent, plan or state PLUS revenue and expenses for U.S. health insurance companies

- Company contacts by health plan and state – includes title, address, phone number and link to company website

If you're using industry directories now, Health Plans USA™ is the better choice. This powerful database will give you complete and accurate information for health plans nationwide. Plus, the Company Contacts tool provides current contact information and useful company snapshots.

The National Association of Insurance Commissioners (NAIC), our data partner, is the premier source for statutory insurance data. We also include data from the California Department of Managed Health Care and our own proprietary ASO, self-funded enrollment database.
